

30th Euro Congress on Psychiatrists and Psychologists

Theodoore Petti

Professor, Robert Wood Johnson Medical USA, E-mail: pettita@umdnj.edu

With the successful completion of 29th [Euro Psychiatry Conference](#) on Psychiatrists and Psychologists was held during July 10-11, 2019 at Golden Tulip Berlin – Hotel Hamburg, Berlin, Germany with the support and contribution of the Organizing Committee Members.

First of all, we would like to thank our speakers, conference attendees, students and guests for trusting us and participating at Euro Psychiatry 2019, a global platform to discuss various important aspects of Psychiatry and Psychology.

Conference Series llc LTD, take immense pleasure in inviting all the participants from all over the world to attend the conference entitled “30th Euro Congress on [Psychiatrists and Psychologists](#) (Euro Psychiatry 2020)” to be held during May 11-12, 2020 in Vienna, Austria.

Psychiatry is the medical specialty devoted to the diagnosis, prevention, and treatment of mental disorders. Psychiatrists have broad training in a bio-psycho-social approach to assessment and management of mental illness. Psychology is the science of behavior and mind. Psychology includes the study of conscious and unconscious phenomena, as well as feeling and thought. It is an academic discipline of immense scope. Psychologists seek an understanding of the emergent properties of brains, and all the variety of phenomena linked to those emergent properties, joining this way the broader neuroscientific group of researchers. As a social science it aims to understand individuals and groups by establishing general principles and researching specific cases

[Euro Psychiatry 2020](#) aims at providing a platform to share their state of art, exchange and ideas, views, experiences, research and technologies of scientists which would cover the most important sessions of Psychiatry and Psychology at Vienna, Austria on May 11-12, 2020 around the theme “A new Approach and innovation in Psychiatry and Psychology”. The conference will serve as a platform to bring together leading Psychiatrists and Psychologists related to the fields of Psychology, Psychiatry and Health

care sectors in different specialties such as psychiatry disorders for example dementia, epilepsy, headache disorders, multiple sclerosis, neurodegeneration, neurological disorders like stroke, traumatic brain injuries and several other brain complications.

According to WHO, Psychiatry is defined as a state of well-being wherein every character realizes his or her own ability and can deal with the ordinary stresses of life, work productively and fruitfully, and are capable of make contributions to his or her community. [Psychological Syndrome](#) is the fitness condition this is characterized by using alterations in thinking, mood, and behavior that is related to distress or impaired functioning. Mental disorders contribute to troubles that may encompass disability, pain, or death.

30th Euro Congress on [Psychiatrists and Psychologists](#) supported by the organizing committee network of renowned scientific and professional expert such as Theodoore Petti, Robert Wood Johnson Medical USA, Peter Woodruff, Weil Cornell Medical College, Qatar, Paolo Scapellato University of Bologna, Italy and Sam Vaknin, Southern Federal University, Russia provided a platform for collaboration among colleagues, vendors, and academia to reveal new innovations, solutions, ideas, and emerging technologies in Psychiatry and Psychology. As a General science it aims to understand individuals and groups by establishing general and specific cases of treatment.

The global market for antipsychotic drugs was worth \$80.5 billion in 2010 and that value is worth to be \$88.3 billion in 2015. The global Behavioral health software market in 2014 is \$0.75 billion and is expected to reach \$1.5 billion by 2020.
