EDITORIAL

Introduction

JOP. Journal of the Pancreas, established in the year an acquired Journal by Insight Medical Publishing Group has been a pioneer in publishing valuable and relevant researches in pancreatology since past 21 years.

The journal is having good indexing and reputation. We have great no. of online readers, JOP. Journal of the Pancreas is covered in the Emerging Sources Citation Index (ESCI), which means all articles published in the journal are indexed in Web of Science at the time of publication.

2019 Highlights

With an enormous success, we have accomplished Volume 20, in the year 2019. This volume was divided in 6 issues with an average of 5-6 articles per issue. JOP. Journal of the Pancreas received more than 50 Articles for publication in 2019 out of which total 35 article are available online with Volume 20, consisting of 18 original articles, 8 case reports and 9 other type of articles. Journal received these articles from highly eminent authors all around the globe, of which more than 50% are from foreign authors.

In the year 2019, journal had global visitors and online readers from various parts of the world such as United States, United Kingdom, Philippines, Spain, Italy, Australia, Japan, Germany, India, Turkey, Pakistan, and many more.

This all was only possible by the immense support and efforts made by our esteemed Editorial Board Members, in regulating the flow articles and reviewer board members in maintaining the quality and standards to the remarkable extent. The Journal has continued to promote its articles online timely on various platforms such as LinkedIn, Twitter, Facebook, and Research Gate and make it available for online readers globally.

2020 Objectives

As the Journal is heading towards Volume 21 and for this the extensive support and contributions of valuable on-going and upcoming researches across the globe, of eminent authors are required. We are in continuous efforts to receive good number of articles from our eminent Editorial board and also have requested them to disseminate the information of journal among their researcher friends and colleagues.

The journal is continuously active via emails, WhatsApp, and social networking platforms such as Twitter, LinkedIn, etc. The Journal will further try to make all published articles available with research gate.

The journal is currently trying to grab the attention of the global researchers on LinkedIn by connecting with the associations, universities and seeking their contributions for future.

We are also trying to grab the articles from the related and associated conferences such as

15th Euro-Global Gastroenterology Conference

22nd World Congress on Advances in Gastroenterology and Urology

20th International Conference on Gastroenterology and Hepatology which are to be held in near future. Editorial office is trying to communicate with the researchers for manuscripts contribution towards the journal.
