Asian Applied Microbiology 2020 invites research scholars & young scientists, to submit the nominations for Young Scientist Awards: Asian Applied Microbiology 2020. This Asian Applied Microbiology 2020 Young Scientist Awards will be announced at the upcoming “13th International Conference on Microbiology” at Tokyo, Japan this November 11-12, 2020.

This Young Scientist Awards is an initiative of Conference Series to recognize and provide incentives to the Young Researchers who has shown great potential at their respective field of research. We at Conference Series always encourage the young budding minds to start their career in the field of research and innovations. The core of our Young Research Forum – Young Scientist Awards is to motivate the scholars to present their research ideas in front of the global experts and enhance their knowledge at our international platform. We at Asian Applied Microbiology 2020 provide the best networking experience to the participant for their overall professional growth and to promote the collaborative research.

About Conference Series

Conference Series LLC LTD is an open resource platform that conducts 3000+ global events including International Conferences, Workshops, Symposia, Trade Shows, Exhibitions and Science Congresses in all the major scientific disciplines, including Clinical, Medical, Pharmaceutical, Engineering, Technology, Business Management and Life Sciences across America, Europe, The Middle East, and Asia Pacific. It is reaching over 25 million researchers, scholars, students, professionals and corporate entities all over the globe. We encourage our authors and conference participants through research and travel grants, young research awards and provide assistance in career development and research guidance through 1000+ collaborations with NGOs, scientific and academic agencies, institutions that have signed MoU with us.

Eligibility Criteria for Young Scientist Awards: Asian Applied Microbiology 2020: The Heart Congress 2020: Young Scientist Awards: is for all young Researchers, Research Scholars (Preferably PhD, Post Doc, and Post Graduates & Graduates) who has involved themselves into the R&D sector. The candidates should have minimum 3+ years of research experience.

research articles in international journals. Part time researchers can be considered subject to recommended by the research guide or any director level designated person from the organization.

Applications are invited on first come first basis. Only 25 nominations are accepted globally.

Basis for Judging: Nominated candidates need to present their research or talk for 25-30 minutes. Subject should be under the scope of the Asian Applied Microbiology 2020 conference. Selection will be on the basis of individual accomplishments, quality & standards of research, noble thought, research methodology, innovative ideas, style of presentation, significance of the contribution to the field, originality, clarity, and future extended scope of the research and probability of bringing the research in terms of products/services into public domain.

Nomination: We invite online applications from desired candidates, selfnomination or nominated by organizations (both private & public sectors)/research guides. The student must be the first author & the student’s advisor should attach a statement that their contribution is primarily advisory.

Candidates applying for the Asian Applied Microbiology 2020: Young Researcher Award should send their resume, along with a letter of recommendation (from a research adviser/faculty/organization heads) to contact@globalconferences.net along with the online application at the Asian Applied Microbiology 2020 Award page.

In spite of being an ancient malady, current immunization and restorative choices accessible for avoidance and control of DENV contamination are seriously restricted. Administration of dengue-associated illnesses comprises of avoiding the viral contamination by mosquito control and calming indications within the tainted people. Advancement of prophylactic/therapeutic treatment against DENV disease utilizing characteristic items may offer assistance address a few of these current confinements. The flavone baicalein, for illustration, applies powerful movement against DENV adsorption to the have and post-entry viral replication.

Presentation:

This award will be presented at Tokyo, Japan during Asian Applied Microbiology 2020 conference

Prize:

- We will recognize the awardee(s) with a Memento, & Certificate of Appreciation followed by special incentive for

the next chapter of the conference.

- The prize-winning papers will be considered for publication in the supporting journals subjected to standard review procedures.
- Opportunity will be given to be Student Ambassador for the subsequent future conferences.
